Customer Reviews

I used it to teach and test my kid. We enjoyed it. However, quite a few words have more than one cards that are exactly the same. It seems the product was made in a careless way.

What child doesn't love flash cards? This set is designed to slowly increase in difficulty without frustrating your child. For example level 1 will have a full color illustration next to the word with a letter omitted. _ENCE (fence) Then level 2 will have two or three letters omitted. FE__E (the picture is there so your child has a clue) Level 3 has just the blank spaces. If you drill once a day (I use half of the level I am on each day) your child will learn the words quickly.

with the pictures next to the word missing one letter it is way to easy to guess without having to spell the word. Not really what I had expected but my first grader will make due with them

I don't like how thin the paper is for these cards

Good product, it's not on a computer. Thumbs up!
