Customer Reviews

This is a great start-up resource book that I carried with me while doing my endocrine clinical. This book is loaded with good and useful information that can be serve as quick reference. Please note that this is a pocketbook therefore the font will be small. I tried to read the book but end up with sore eyes. Then I decided to use other textbooks/ online resources to supplement the material.

Great concise reference for the practitioner during the daily work. I love Tarascon Books! Same size as the pharmacopoeia and the Critical Care book, but with more pages.

Simple to review, perfect,pocket book but comprehensive,I knew that it will be very good book from the start,thanks to tarascon,I will till my colleagues

Great to have
