# A Writer's Reference With Strategies For Online Learners

## Synopsis

This version of America's best selling college handbook addresses the needs and questions of online students, a growing population, by offering study tips, time management strategies, and other tools for success. Topics include how to be an active participant in an online course, how to navigate the learning space, how to communicate appropriately with peers and instructors, and how to seek academic and technical help. Charts and illustrations provide practical models. Strategies for Online Learners is also available in a packageable, stand-alone booklet (ISBN: 978-0-312-54370-9). Contact your sales representative or [sales\\_support@bfpwpub.com](mailto:sales_support@bfpwpub.com) for a copy.

## Customer Reviews

This book is way overpriced and full of information you can find in a number of places on the web. Fortunately I purchased it here instead of my school's bookstore where it was 50% more. Why do publishers feel the need to grab every bit of cash from students? Most likely because it is easy because schools require that many books be purchased.

This book is easy to reference and life save to the writing practices I use for school, especially graduate research papers.

needed it for class, was exactly what i expected . will buy again

Purchased this resource and was pleased with the amount of helpful information. As a result, I required the students in my college freshmen writing class to also purchase it to use as a resource throughout their college years.
