The online book at pearson is 70. The kindle book is easily used on my phone, allows me to take notes, highlight, and make my own flashcards. There are also ready made flash cards from the kindle x ray. I prefer to make my own flashcards.

Do not buy the Kindle version, waste of money, I can not use it on my devices. I can't use it on the chromebook, I can't use on my laptop, keeps saying that it is not comparable with Windows 8, I have Windows 10 on the laptop but anyhow. So, the only device I can use it on is my cell phone. Thanks a lot . Waste of \$40, I regret not buying the paperback.

doesnt allow you to take personal notes, only highlighting. doesn't come with access code even with full ebook purchase. I recommend purchasing through pearson where its only \$70 for full access to book and online course which many classes use. Pearsons version of the ebook is hands down the better choice

If it were possible for me to give zero stars I would. Do not, under any circumstances, buy this book in the Kindle edition. Or at least, do not buy it if you want to be able to read it on more than one device. I tried to download it to my laptop, but that didn't work, so I put it on my phone so that I could finish an assignment. The text is so badly formatted for the phone as to be totally useless. When I got home, I tried to put it on my desktop. Kindle tells me that I have exceeded the number of devices I can have it on, and that in order to put it on my computer, I have to deregister my phone, and delete all the content on my phone. Nowhere does it say that there is a limit to the number of devices on the purchase page. And if it had, I would have made a different choice about what I would have purchased.
