Infinite Possibilities: The Art Of Living Your Dreams

Synopsis

Infinite Possibilities is the masterwork from teacher, author, and featured speaker Mike Dooley. As the next step beyond his immensely popular Notes from the Universe trilogy, and his follow up, Choose them Wisely, this book contains even more enriching wisdom for living an abundant, joyous life. Mike Dooley knows that we create our own reality, our own fate, and our own luck. We're beings filled with infinite possibility "just ready to explore how powerful we truly are. Manifesting the magnificence of our dreams isn't about hard work, but rather about belief and expectation. These principles transcend belief, realizing the truth about our human nature. Your dreams are not accidental, nor inconsequential. And if someone were to tell the truth about life, reality, and the powers we all possessed, would it be recognized? Our lives are full of adventures "and not exactly the sky-diving, mountain-climbing variety "but something better. Readers will laugh, applaud, and be inspired by Mike Dooley's wit and wisdom.

I don't even know what to say, except that this set of 12 audio CD's outdoes ANYTHING I've ever read or listened to or known before in my life-quest of improving myself, realizing my dreams, and searching for the "answers" in life. This will be the best money you've ever spent. Mike Dooley doesn't talk about creating your life like, say, Anthony Robbins.....and I used to like Anthony Robbins. They both have some of the same ideas, except that Robbins requires all this "work" and "effort" and "practice" to get what you want....while Dooley seems to have a true understanding of the "crux" of topics he discusses....and you learn that "creating" requires little more than belief. And there's no

jumping up and down and yelling, like with Anthony Robbins! This is thoughtful, quiet, inspiration at it's very best. There are some CD's that I have listened to 3 and 4 times, because they are so incredible. No crazy stories or doctrines....instead, he gets to the "bottom" of our belief systems, and our role in this universe, and how powerful we really are. And all that, without an ounce of GUILT, like our religions try to tell us is mandatory. Don't think that Dooley is mocking God or religion. He embraces God, and is very respectful in his speaking on the subject for those of you who are still in the clutches of needing to be guilty and punished, and waiting to see if it's God's will to give you things you want, without striking you down to humble you at the same time..... (sorry, I'm a recovered Southern Baptist!) Dooley says that he believes we are all a PART of God, but that he believes that there is definitely Someone bigger than the rest of us. In fact, he sees the entire universe as being part and parcel of God.....

I have read a ton of books on this subject over the last 4 years or so about how we create our own reality, law of attraction, affirmations, etc. This is, by far, the best! Many authors tell you the "what" of the subject but not the "how" of it. Mike does both extremely well. He will tell you the principle (or law if you want) and then he goes a step further than the others and that is he tells you exactly how to implement that principle. He gives totally down-to-earth recommendations using real-life situations that most people can relate to. He also tells of his own experiences, what he wanted and then exactly what he did and how he did it to accomplish his intention. The issue I have always had is when most authors tell you that you must "act as if" your dream has become reality and that will bring the actuality of it into your life. And my question always has been "how in the heck am I supposed to do that when it just isn't the case?" Well, Mike answers that quite nicely with real-life examples on how to do exactly that! This morning I wrote up my list (a full page long) of everything that I can do to "act as if" based on his suggestions. I feel more optimistic and enthusiastic about my dreams becoming a reality than I have in a VERY long time! And I've only gotten through 7 CD's so far! He also has some extremely thought-provoking ideas about what "reality" really is (or isn't) that have really expanded how I am perceiving things. This program has also given me a lot of "ah-ha" moments (which I always find to be quite fun!) :-). Anyways, whether you are new to the "law of attraction" principles or have spent the last few years studying the subject like I have, trust me, you will get A LOT out of this program!
