# Refining Composition Skills: Academic Writing And Grammar (Developing / Refining Composition Skills Series)

## **Synopsis**

The new edition of this best-selling series combines comprehensive development and practice in the rhetorical modes while integrating instruction in reading, grammar, critical thinking, and vocabulary development. -Developing Composition Skills focuses students on narrating, describing, analyzing, comparing and contrasting, classifying, and evaluating at the paragraph level and offers a complete introduction that bridges the gap between the paragraph and the essay level. -Refining Composition Skills develops essay writing skills needed for success at the college level by thoroughly reviewing and presenting the following rhetorical modes: compare and contrast, example, classification, process analysis, cause and effect, and argument

## **Customer Reviews**

Good, but it doesn't cover any of the subjects deeply. I believe that if you are "refining" your skills is because you already know those skills and want to go deeply in learning them. However, this book gives only quick explanations about either writing and grammar. I just "learned" again everything I already knew and didn't refine anything. If you were required to buy it for classes, buy an used one. It's not the kind of book you will keep after your classes are done.

Plenty of up-to-date model paragraphs and essays to help the student see writing patterns at work. Sections of grammar, mechanics and 5Cs allow student to put together a nice piece of work.

One of the best ESL writing books out there.

The book is great for beginners, unfortunately my professor wasn't that great too...I give the credit for the book, but if you need more help, you will going to need something else.

I needed this for class this Tuesday and when I received my parcel it came in excellent conditions, so there is nothing that was out of the norm from my purchase..

the book really helps to improve my English skills. I especially like the sample papers. I bought this to re-sell later, but I would keep it.

This is a new book. This book is really useful. It let you understand writing in a simply way. More useful reading thing in it.

I got this book for college and I was blown away by how quickly it arrived. It only took one day and I chose standard shipping. It is a really good book to refresh or improve writing skills. It has very detailed explanations and examples.
