## Customer Reviews

I am suffering from foot pain and it is a nuisance because I like jogging very much and I cannot

practice the sport when my feet are aching. So I decided to download the book to read it. This is a short guide with useful information. There are some tips and treatments to improve and get rid of the pain. Still I think it is not like going to the doctor but it is much cheaper. I have used some of the tips and I feel better.
